PROFESSIONAL SUMMARY

IT professional with a strong foundation across project management, systems and network infrastructure, and business data analysis. Currently leading technology-focused initiatives at Moti Engineering PLC, spanning digital banking platforms, kiosk and customer experience systems, and SIEM/SOC security environments. Builds on hands-on experience in server virtualization, helpdesk operations, and network administration to manage high-risk, time-sensitive projects from implementation through post-deployment stabilization. Skilled at preparing structured documentation, organizing and summarizing bulk data, and monitoring KPIs to support management decision-making.

Key highlights: 25% reduction in system downtime • 90% SLA compliance • 500+ Students & users trained.

KEY SKILLS & COMPETENCIES

Server & Virtualization: VMware ESXi, data center management

Helpdesk & Ticketing: Zoho Service Desk (Level 2/3), Endpoint Central

Network Administration: LAN/WAN troubleshooting, switch/router configuration

System & Application Support: POS servers, printer servers, CICO systems

Database Administration: MySQL backup, recovery, and performance tuning

Scripting & Automation: PHP, Python (automation scripts, internal tools)

Data & Reporting: KPI monitoring, daily/weekly/monthly analytical reporting, bulk data organization for management

Documentation & Training: SOPs, knowledgebase articles, user workshops

PROFESSIONAL EXPERIENCE

Senior Project Management Officer

Nov 2025 – Present

Moti Engineering PLC - Addis Ababa, Ethiopia

- Lead end-to-end execution of technology projects, including digital banking systems, kiosk/CVM deployments, and SIEM/SOC security infrastructure.
- Manage high-risk, time-sensitive projects requiring close coordination with banks, vendors, and internal engineering teams.
- Drive project recovery and stabilization for systems needing post-deployment corrections and vendor escalation.
- Produce structured documentation, including implementation plans, risk matrices, technical reports, and stakeholder updates.
- Monitor and report KPIs to evaluate project performance; prepare daily, weekly, and monthly analytical reports for management.
- Coordinate cross-functional teams across infrastructure, application, and support units; maintain confidentiality and security of company information.

PROJECT & DELIVERY
CAPABILITIES

- Digital Banking System Implementation
- Kiosk & Customer Experience Machine (CVM) Deployment
- SIEM / SOC Security Infrastructure Projects
- Vendor Coordination & Escalation Management
- Post-Implementation Support & Recovery Handling
- Technical Documentation & Reporting
- Risk Tracking & Project Monitoring

TECHNICAL SKILLS

Languages

PHP, SQL, JavaScript, CSS, HTML, Python

Systems

Windows, Linux, MySQL, VMware ESXi, Zoho Service Desk, Endpoint Central

Tools

Adobe Photoshop, FL Studio, LMS Tools, Web Hosting, GitHub Pages

CREATIVE SKILLS

Graphic & Web

Photoshop, GitHub Pages, HTML/CSS/JS

Audio & Video

FL Studio, Adobe, DaVinci Resolve

KEY TOOLS

VMware ESXi

Zoho Desk

Endpoint Central

MySQL

Excel

MS Project

cPanel

PowerShell

CMD

SSH

Sergei Strelec WinPE

PHP / Python

PROFESSIONAL EXPERIENCE (CONTINUED)

ICT Technical Analyst II (Outsourced to Moenco Inchcape)

Jul 2024 – Nov 2025

Moti Engineering PLC - Addis Ababa, Ethiopia

- Managed and maintained two VMware ESXi servers, reducing system downtime by 25%.
- Delivered Level 2/3 support via Zoho Service Desk, resolving incidents with 90% SLA compliance.
- Administered Endpoint Central for centralized management of 12+ user devices.
- Oversaw POS and printer server operations across multiple departments, ensuring uninterrupted service.
- Supported the CICO (Clock-In Clock-Out) biometric system used for workshop time tracking.
- Installed and configured network switches, routers, and workstations; collaborated with Head Office IT on upgrades, backups, and security audits.

Senior Technical Assistant - Computer Lab Instructor & Organizer

Jul 2018 – Jun 2024

Dire Dawa University - Dire Dawa, Ethiopia

- Designed and established 4+ computer labs for Computer Engineering coursework, providing hands-on lab courses and practical training for students
- Coordinated as part of a task force to facilitate IT infrastructure, lab environments, and software preparation for an online exit exam platform used by 500+ students.
- Delivered hardware and software troubleshooting, achieving 90% lab uptime.
- Taught lab courses in Java (OOP I/II), DBMS (SQL), and Operating Systems; trained 500+ students in Advanced Courses and basic computer skills.
- Conducted digital-skills workshops for faculty and students.

ANALYTICAL & REPORTING STRENGTHS

- Strong analytical and problem-solving skills, with excellent attention to detail and accuracy.
- Ability to interpret complex data and present clear, management-ready insights and summaries
- Good working knowledge of Microsoft Excel and reporting/data analysis tools.
- Experienced in organizing bulk data into clean, well-structured, management-ready summaries.
- Strong communication skills and the ability to manage multiple deadlines at once.

WHY THIS PROFILE

Combines three years of direct technical infrastructure ownership with a growing project management track record - giving equal credibility for IT/network support roles, project coordination roles, and hybrid technical-PM positions across banking, enterprise, and education sectors.
