Profile

IT professional with 6+ years of experience spanning IT systems, infrastructure, technical support, and technology solutioning, currently serving as a Senior Project Management Officer at Moti Engineering PLC. Leads high-risk, time-sensitive technology initiatives across digital banking platforms, kiosk/CVM deployments, infrastructure, and SIEM/SOC environments. Combines hands-on expertise in VMware ESXi, Level 2/3 systems support, system administration, and advanced technical troubleshooting with the ability to architect custom web-based operational platforms and automated reporting solutions. Leverages a Computer Science background and strong cross-functional collaboration to align technical teams, vendors, and stakeholders while delivering structured documentation, KPI reporting, and project outcomes.

Key Skills & Competencies

- Project Management

Project plan, Gantt scheduling, milestone tracking, execution monitoring, & stakeholder coordination.

- Data & Reporting

KPI monitoring, daily/weekly/monthly analytical reporting, bulk data organization.

- Documentation & Training

SOPs, knowledge-based articles, user workshops.

- Quality Management

ISO 9001:2016 QMS training, internal audit participation, staff awareness sessions.

- Database Administration

MySQL backup, recovery, and performance tuning.

- Server & Virtualization

VMware ESXi, data center management.

- Network Administration

LAN/WAN troubleshooting, switch/router configuration.

- Helpdesk & Ticketing

Zoho Service Desk (Level 2/3), Endpoint Central.

- System & Application Support

POS servers, printer servers, CCTV/CICO systems.

- Scripting & Automation

PHP, automation scripts & internal tools (CMD, PowerShell, SSH).

Selected Projects

Ticket Management System

A unified service-desk platform for tracking critical IT issues, centralizing technical documentation, and coordinating rapid engineering intervention. In active use at Moti Engineering PLC.
servicedesk.motiengineering.com

ATM Daily Reporting System

An automated reporting platform that consolidates daily ATM transaction data into management-ready dashboards, replacing manual reconciliation.

Library Management System

A full inventory, user-administration, and reporting system for managing library catalogs, checkouts, and returns.

Professional Experience

■ NOV 2025 – PRESENT

Senior Project Management Officer

Moti Engineering PLC - Addis Ababa, Ethiopia

- Lead end-to-end execution of technology projects, including digital banking systems, kiosk/CVM deployments, and SIEM/SOC security infrastructure.
- Manage high-risk, time-sensitive projects requiring close coordination with banks, vendors, and internal engineering teams.
- Drive project recovery and stabilization for systems requiring post-deployment corrections and vendor escalation.
- Produce structured documentation, including implementation plans, risk matrices, technical reports, and stakeholder updates.
- Monitor and report KPIs to evaluate project performance; prepare daily, weekly, and monthly analytical reports for management.
- Coordinate cross-functional teams across infrastructure, application, and support units, while maintaining confidentiality and security of company information.

■ JUL 2024 – NOV 2025

ICT Technical Analyst II

Moti Engineering PLC (Outsourced via Moenco Inchcape) - Addis Ababa, Ethiopia

- Managed VMware ESXi virtualized servers and data center operations, reducing system downtime by 25%.
- Provided Level 2/3 technical support via Zoho Service Desk, maintaining 90% SLA compliance.
- Administered Endpoint Central across 12+ user devices for patching, monitoring, and asset management.
- Maintained POS servers, printer servers, and CICO biometric attendance systems.

■ JUL 2018 – JUN 2024

Senior Technical Assistant - Computer Lab Instructor & Organizer

Dire Dawa University - Dire Dawa, Ethiopia

- Organized and equipped 10+ computer labs for the Computer Engineering program, serving 1,000+ students while maintaining 95%+ uptime.
- Taught lab courses in Java (OOP I & II), DBMS (SQL), and Operating Systems; trained students in advanced coursework and basic computer skills with a 98% pass rate.
- Authored lab manuals and SOPs that reduced lab setup time by 30%.
- Coordinated as part of a task force to prepare IT infrastructure, lab environments, and software for the university's online exit-exam platform.
- Conducted digital-skills workshops for faculty and students.

■ 4-MONTH CONTRACT

Data Encoder & Election Executive

National Election Board of Ethiopia (NEBE) - Dire Dawa, Ethiopia

- Encoded voter data during field operations in support of national election logistics.
- Supported on-site election execution and audit procedures, ensuring data accuracy and compliance.
